Attorney General John Ashcroft  
US Department of Justice, 950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

January 25, 2002

Dear Mr. Ashcroft:

My family is writing to express our support for the settlement reached between Microsoft and the Federal Government. Microsoft went beyond the products and procedures that were actually at issue in the suit, for the sake of wrapping up the suit.

Microsoft has agreed to grant computer makers broad new rights to configure Windows so as to promote non-Microsoft software programs that compete with programs included within Windows, not to enter into any agreements obligating any third party to distribute or promote any Windows technology exclusively or in a fixed percentage, and not to retaliate against computer makers who ship software that competes with anything in its Windows operating system.

This is a very generous settlement that addresses the government's concerns and Microsoft's competitors' concerns. Its time to let Microsoft get back to work, please approve this settlement

Sincerely,

James S. Serpico
